

## **Barrier Set-Up and Take-Down Requirements**

### **Barrier Set-Up:**

Construction barriers **MUST BE** inspected prior to work beginning (Call Anne Sepanski @ 262-928-6046 for pre-inspection) – **Requires minimum of 48 hrs notice (does not include weekend hours)**

### **Barrier Take-Down:**

Construction barriers **MUST BE** inspected prior to taking down barrier when work is complete (Call Anne Sepanski @ 262-928-6046 for inspection) – **Requires minimum of 48 hrs notice (does not include weekend hours)**

Please note: Barrier inspection prior to work starting or before taking down is done by the Facilities Compliance Specialist. This is not done by the Project Manager or Site Facilities Staff.

\*\*\*\*\*

*Any work within the PHC system that is started prior to barrier inspection and approval, will be **shut down until compliant**. Following the shutdown, the contractor will be required to contact the Facilities Compliance Specialist for inspection before work can begin again.*
